

20 kwh battery storage

20 kwh battery storage

CMX has been designed to replace lead-acid batteries advantageously, by offering a quadruple energy density for an equivalent weight and size. Thanks to LiFePower4 technology, the CMX wholesale OEM 20 kwh battery storage Lithium Battery System can be installed in standard 19" server rack cabinet.

The electrical parameters of the CMX solar 400ah 20kw solar system Lithium Battery are compatible in all respects with those of an AGM lead battery of 48 V. In the vast majority of cases, the charging system can be kept the same and no additional accessories are required to perform the replacement.

This 20kwh battery come with built in Bluetooth. Provide all battery information and display to mobile phone App. User can easy check battery working state like voltage, discharge current, cell balance, SOC.. and so on. In additional, user can use a RS485 or CANbus to communicate with computer software or communicate directly with your inverter
