

280ah battery management system

280ah battery management system

In the field of sustainable energy, both battery performance and safety are crucial. Our 48V EVE 280Ah LiFePO4 Battery Pack is a powerful, reliable energy source specifically designed to meet the demands of electric vehicles. With intelligent management and superior performance, it's the ideal power solution.

Our 48V EVE 280Ah LiFePO4 Battery Pack combines high capacity, robust safety, and intelligent management to provide an ideal power solution for electric vehicles. Choose our battery pack for long-lasting, reliable power.

JK BMS held a professional BMS engineer team have more than 10 years experience in the electronics/battery BMS field, strength to design and produce the most innovative and high quality active battery balancer and active balancer BMS for li-ion,lifepo4, NMC, Ni-MH,Ni-Cd, Lead-acid batteries, red-flow batteries, VRLA and AGM batteries,etc..

The DYNESS battery PowerBrick module is widely used in energy storage sector. It adopts modular design and can be used for residential applications. The reliable LiFeP04 technology ensures maximum safety and a longer life cycle.
