

## 280ah lifepo4 cells

### 280ah lifepo4 cells

We design, supply, and deliver every kind of green energy battery and solar energy system for homeowners, business program, and installers. We use only the well-known manufacturers in our design layouts, customized for your specific needs and requirements.

We provide original Battery cells with intact QR Codes and Grade A performance. A protection valve builds inside the battery, keep the battery safe from overcharge and over-discharge use. Each battery has its own QR-code as identification.

Using laminated production technology, LiFePO<sub>4</sub> Battery has higher performance in charging, discharging, and life cycle, with a thinner body, lighter weight, more flexible size, and shape, which can adapt to a variety of applications, has better stability and tolerance in high-temperature discharging.

Our Battery included all parts for assembling, with bus bars, and screws. All these parts are made of copper and aluminum, with a strong conductivity and longer life.

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

We provide lifepo<sub>4</sub> Battery cells with high-performance. A protection valve builds inside the battery, keeping the battery safe from overcharge and over-discharge use.
