

36 volt enjoybot lithium battery

36 volt enjoybot lithium battery

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

"...rst of all lithium batteries are half the weight of the old batteries so much easier to handle and lightens the load in the motorhome...." Read more

"Much lighter in weight. Replaced 6 lead acid weighing 60lbs each(deep cell) with 3 of these. Weight of 27 lbs each. Had to modify cart frame...." Read more

"...The transition was smooth, and the 36 volt cart is now faster and the charge lasts longer than the more expensive batteries in the other cart...." Read more

"...Strong, long charge, slow discharge, BMS works great, etc. I did do my research and found some testing on them before buying so felt good...." Read more

"...We installed these in July and it's been a few months and the golf cart works great, we've not had any issues with any of the batteries...." Read more

"...left, the years of use versus the standard battery is definitely worth the money. They were easy enough to install and we are very happy with them." Read more

"...reviews and chose this one based on his observation that it's built very well, and his comment that a built-in freeze sensor isn't necessary given..." Read more
