

370 kWh energy storage efficiency

Huimin Fu, Ming Shi, Miaomiao Feng, Capacity optimization strategy for energy storage system to ensure power supply, International Journal of Low-Carbon Technologies, Volume 18, 2023, Pages 622-627, <https://doi/10.1093/ijlct/ctad039>

Oxford University Press is a department of the University of Oxford. It furthers the University's objective of excellence in research, scholarship, and education by publishing worldwide

Long-duration energy storage technologies can be a solution to the intermittency problem of wind and solar power but estimating technology costs remains a challenge. New research identifies cost targets for long-duration storage technologies to make them competitive against different firm low-carbon generation technologies.
