

3kw 24v hybrid inverter

3kw 24v hybrid inverter

Multifunctional off grid solar inverter, integrated with a MPPT solar charge controller, a high frequency pure sine wave inverter and a UPS function module all in one machine. Perfect for off grid backup power and self-consumption applications. Transformerless design provides reliable power conversion in a compact size. Purchase two for 120/240V TRUE Split Capacity.

Q:How to choose an inverter that suits you? A:Please confirm your loads, battery capacity and voltage, solar panel string capacity; you can contact us for professional help

Q:What Is an Inverter Charger with MPPT? A:It is an Integrated unit with MPPT solar charge controller, pure sine wave inverter, and battery charger in one compact unit to let you enjoy the stable power from the sun and the utility grid to keep you powered under any circumstances. PV1800 VPM 3KW Solar Inverter Charger combines solar charging, AC/generator battery charging, and battery inverting into one convenient solution to take your off-grid system to the hybrid level.

Q:Can I use this inverter to charge my batteries? A:Yes. Compatible with 24V battery banks, this solar inverter charger keeps your battery charged with solar panels and AC/generator.

Q:Can I use the solar inverter without batteries when using PV or Mains? A:No, at minimum you need to have batteries connected to the unit. But our PV1800/PH1800 PRO series can run without battery. You can have a look at our store

Q:Does this solar inverter limit PV current? I'm not getting my full power? A:When setting up the solar inverter, ensure Program 11 (PV Charging Current) and Program 13 (Maximum Charge Current) are set to their maximum to ensure no PV current clipping.

Q:Can I use the WIFI Module to monitor the inverter from my phone? Which WIFI Module should I buy? A:Yes. The WIFI-PLUG is compatible with this inverter. Please choose your inverter with WIFI-PLUG to order

Q:Warranty Policy A:The MUST products we sell are covered by a one-year warranty. In case of product failure, contact our after-sales engineers for help in the first instance. If necessary, we will send you free parts (within the warranty period). Wrong way of operation may cause the product to burn out, such as not following the standard installation when connecting cables. Please read the manual carefully when installing.

Q:Shipping Policy A:Normally we send the goods the second days after payments. We use air cargo to send the goods. Aliexpress Standard Shipping arrive at 15-20days(EU country arrive at 7-10 days), DHL/FedEx/UPS arrive at 7-10 days, Cainiao Heavy Line arrive at 20 days(EU 15-20 Days).

3kw 24v hybrid inverter

MUST ENERGY (GUANGDONG) TECHNOLOGY CO., LTD established in 1998, with professional R&D team, reliable production team and over 20 years experience in green energy filed, MUST ensure you a STABLE, EFFICIENCY, POWERFUL sustainable power solutions. Backed up by a 60+ power electronics engineering team, MUST specializes in battery storage for both residential facility and commercial enterprises.
