60 kWh backup power system

User Guides:-Battery Backup Power 60kW 100kWh 3 Phase ESS With Integrated Off Grid Backup Power User GuideSpec Sheet/Cut Sheet:-Battery Backup Power 60kW 100kWh 3 Phase ESS With Integrated Off Grid Backup Power Specification Sheet

A single compact unit with everything included, our 60 kVA BESS comes with inverters, fire protection, HVAC, and our deep expertise across a wide variety of applications and industries. Whether you know what you need or just the pain points you need to overcome, we'll deploy a turnkey solution that allows you to reduce generator runtime, store and use energy more efficiently, and bring fuel costs down.

Our plug-and-play 60 kVA battery solutions can be rapidly deployed alone or as part of a hybrid solution, where we combine generators with battery storage, automatically switching between the two as loads change or your battery is depleted.

We deliver reliable and scalable energy storage systems tailored to projects of any size. Our solutions maximize efficiency, cut emissions, and lower costs. Whether you need temporary backup or a long-term energy strategy, we provide flexible, modular systems that adapt to your specific needs without the need for large capital investments. Trust us to keep your energy operations running smoothly with our advanced technology.

We developed our Greener Upgrades initiative to support our customers in making choices that are kinder to the environment. These small shifts make a big difference in lowering regulated emissions like NOx, particulate matter (PM), and CO. Also, CO2 emissions can be reduced by minimizing fuel consumption and utilizing environmentally friendly biofuels.

The battery system comes in many different sizes and configurations options. When you purchase your battery system, we will reach out to schedule your dedicated session with our technical experts, who will make sure your system is fit to your specific needs. This ensures personalized service and scheduling at your convenience. Our team of energy experts are ready to help you tackle any solar, battery, and backup configuration you can imagine.

IMPORTANT: Emporia will not ship your order until we've spoken to you and ensured that the battery solution will operate effectively for your selected application. We do not accept returns. Additional Shipping Charges may apply. Therefore all orders can be adjusted anytime prior to fulfillment without penalty. We're excited to work with you.

Once you purchase your battery system, we'll reach out to schedule a free virtual consultation with an Emporia Energy Expert who will analyze your energy usage and recommend the best battery system

60 kWh backup power system

configuration for your home and budget. Our battery is modular and completely customizable - no need to install anything but the perfectly sized system.
