Delta Solar Inverter, Luminous Solar Inverter, SMA Solar Inverter, Havells Solar Inverters, Hybrid Solar Inverters, Su-Kam Solar Inverters, Microtek Solar Inverters, ABB Solar Inverter.

Investing in rooftop solutions leads to great savings, while protecting the environment. Tata Power Solar offers solar rooftop for home. Save and Earn from your idle rooftop space.

An 8 kW system is adequate for large houses (~220 - 1,000 square yard), having an annual electricity bill worth Rs. 2,00,000 or where power cuts are frequent - 7-8 hours on an average each day. You can benefit from zero electricity bills once you install the solar system. An 8kW solar system is ideal for both residential and commercial usage - homes, offices, petrol pumps, farmhouses, schools, hotels, etc.

When power requirement/ electricity bill is high, a consumer needs to decide the amount of savings he needs from electricity bills. An 8kW solar system is apt in such cases.

You need to get all the components of an 8kW solar system for installation. You can also contact Loom Solar for installation. We provide all products and services including consultation and installation for the same. You can visit our website for the same.

8 kw solar system price in india

Where there is a power cut for approximately 1 hour and that is too seasonal (power cut during rainy or summer season), you can do with a solar system without batteries. But in areas where the frequency of power cut is high (7-8 hours regularly), you will need to install a solar system with batteries.

An 8kW solar system can generate upto 12,000 units yearly. Your earning will depend upon the electricity units charges in your area/ region. If the tariff is Rs. 7-7.5/ unit, total earnings come to Rs.70,000 - 75,000 annually. You can achieve an ROI within 4-5 years and enjoy free electricity.
