

Andorra solar energy for homes

Andorra solar energy for homes

Soterranis, habitacions fosques, ulls d'escates, naus industrials i comercials, centres esportius, escoles, despatxos, hospitals, esglésies, restaurants, garatges, passadissos, hotels...

S'instal·la en menys de 4 hores sense grans obres. Possibilitat de combinar la llum natural amb un sistema de leds, diposa de regulador. Varis models de difusors

El nostre equip té una experiència de més de 20 anys en el sector de les energies renovables, amb casos d'èxit a Andorra però també internacionalment.

This application was developed by the Observatori de la Sostenibilitat d'Andorra (OBSA) as part of the project "Potential for the use of solar resources from the Pyrenean buildings" rooftops

Andorra is an ideal place to work and establish a company. It is a charming and family-friendly country, with spectacular natural surroundings and great tranquility, where many business opportunities arise and where, moreover, it is very easy to solve all the problems that arise. Gerard Marabella, CEO of Balize

We decided to open the clinic in Andorra because many of the Moto GP and Superbike riders that we advise live here, such as Fabio Quartararo and Pol Espargaró. Also because there are quite a few elite athletes living in the country. Andorra Business helped us for the launching of the business by providing us information on how to set up the company in the Principality. Elia Villa, CEO of Clinica Mobile Andorra

Having a business in Andorra does not only mean having tax benefits. It is also easier on a bureaucratic level and to project yourself internationally. Andorra Business helped me in precisely this process, making my products known outside the Principality. Meritxell Martí, Owner of Farmàcia Meritxell

The Principality's highly competitive tax framework allow us to offer attractive prices to our clients. Additionally, the Government of Andorra prioritizes the development of the biotechnology sector, to which we contribute as the first company of this type in the country. Joan Muro, Marketing and Communications Director at Cellab

We have chosen to establish our company in Andorra due to its privileged natural characteristics that make it an emblematic country, its security, the moderate tax pressure it offers, and our belief in its strong potential to become a European healthcare hub. Jesús Costa, CEO of Centre Mèdic Valira

Andorra has a variety of advantages we took into account when we decided to establish the company in the

Andorra solar energy for homes

country such as security, legislation and political stability. And after having done so, I was surprised by how much people love living in Andorra. It provides a very high quality of life.

We came to Andorra because we love mountains, because Spain and France were nearby, and especially because of the exceptional security framework that the Principality offers. We are very happy to continue with the support of Andorra Business, since thanks to them we have been able to establish many commercial links with international companies.
