

Battery pack 220 kWh

Battery pack 220 kWh

This meticulously engineered system provides comprehensive power solutions for your household electronics and high-demand appliances. Lightweight and easily transportable, it serves as a robust backup, ideal for large homes seeking superior power autonomy. Equipped with cutting-edge inverter and battery technology, this system stands out in the United States for its exceptional value.

Engineered for durability, the 110-220VAC/13KWh WALRUS Battery promises a lifespan of over 10 years, subject to usage patterns. It's capable of smoothly powering your household, offering an integrated, all-in-one system for effortless installation.

Versatile in its compatibility, the Off-Grid WALRUS System seamlessly integrates with various power sources, including AC, solar, or generators. Its low-maintenance nature and efficiency surpass traditional lead-acid battery systems, offering up to 300% longer life. Moreover, each battery pack comes with a comprehensive 10-Year Warranty, ensuring long-term reliability and peace of mind.

Our standard shipping process ensures swift order fulfillment, with packages typically dispatched within 24 to 48 hours. Your estimated delivery times are as follows:

If you wish to update or change your shipping address, kindly email us your revised shipping details, and we will be more than happy to make the necessary changes in our system to ensure a seamless experience for your future transactions.

Once your order is shipped, an email containing your tracking number and a convenient link to monitor your package's journey will be promptly sent to you. Keeping you informed every step of the way is our commitment to exceptional service.

We take pride in our dedicated customer service team, poised and ready to address your inquiries between 8:00 AM and 5:00 PM PST. Your satisfaction is our mission, and we're here to assist you during our business hours.

While our advanced shipping system is designed to detect any incorrect addresses, we understand that changes may arise. Feel free to reach out to us via email or phone to provide us with any updates or corrections to your address. Your convenience is our priority, and we're here to assist you promptly.

We proudly ship to USA Mainland addresses. Due to the hazmat nature of our batteries, we are currently unable to facilitate international shipping. However, for our international customers, we do offer the flexibility for buyers to arrange their own shipping to their desired destination country. Your convenience and satisfaction remain at the forefront of our service.

Battery pack 220 kWh

As some of our packages may exceed standard shipping dimensions, your order may arrive in multiple packages. To streamline your tracking experience, we provide a Master tracking number, with each individual package's tracking number conveniently attached for your reference. Your order's safe and efficient delivery is our top priority.

Compare our lithium battery kits, available in configurations of 1, 2, and 3 units, to find your ideal power solution. Explore their range of amp hours (Ah) and kilowatt hours (kWh) to make an informed decision.

The Walrus is saving money! My electric bill is cut in half without a sub-panel, only charging with solar panels. I also used as a whole home backup firing my well and most everything else in my home for over 6 hours with plenty of juice to spare, I need Battery EVO to hook me up with a second battery pack and I will test going 100% off grid with a video review to follow, for now check out my first video review. https://youtu.be/laJXsOXop_A
