Battery testing czech republic

Our wealth of resources, created and shared by our global network of experts, can help ensure that you and your organisation have access to up-to-date knowledge, best practises and education.

Intertek provides safety and performance certification to nationally recognized standards for a wide range of products. Our product directories allow you to easily verify products that carry our marks.

If you would like to report an Intertek Certified/Tested product that does not appear to be compliant, or has been involved in an accident, contact us and we'll address your inquiry as soon as possible.

Stay informed on essential regulatory requirements, changes, updates, and notices. Intertek's industry involvement provides you with the information you need to know as soon as you need to know it.

Intertek is the industry leader, with employees in 1,000 locations in over 100 countries. Whether your business is local or global, we can help to ensure that your products meet quality, health, environmental, safety, and social accountability standards for virtually any market around the world.

From electric vehicles and personal electronics to renewable energy, Intertek offers Total Quality Assurance in battery testing and certification services, ensuring energy storage technologies meet performance, reliability and safety criteria.

With facilities strategically located near the major development hubs around the world, Intertek's global network of performance, safety and quality evaluation teams are able to assess batteries and energy storage systems from tiny hearing aid button cells through multi-megawatt stationary installations and everything in between.
