

Chargepoint level 3 charger cost

Chargepoint level 3 charger cost

Express 250 stations can be paired to deliver up to 125 kW to a vehicle, enabling high-power charging with limited infrastructure costs. Save space with the smallest fast charging footprint, whether standalone or paired.

Low Cost: State-of-the-art power, smart design + competitive cost DC fast charger. Warranty: 1-3yr ChargePoint Warranty; Proactive Monitoring, Repair + Reporting. Networking: Station Activation and Configuration Service for your initial setup. Support: Monday to Friday from 5 AM to 6 PM PST.

Level 3 chargers have a wide range of power output, which affects cost. A charger that delivers up to 25 kilowatts of AC power is considered level 3. However, the top end of the power output extends up to about 500 kilowatts and delivers up to 200 miles of range in 30 minutes of charge.

Make your business a highly demanded and sought after premiere destination. The ChargePoint Express 200 CPE200 generates revenue, branding and sustainability opportunities while charging popular electric car models including Nissan LEAF, BMW i3, Chevrolet BOLT and SPARK, Volkswagen e-GOLF and all Tesla Models (use of adaptor). Retain and attract high value customers by keeping them charged up and coming back for more. Innovative features of the ChargePoint Express 200 include:

Future Energy specializes in providing comprehensive strategies for a diverse range of industries to address their distinctive challenges stemming from the integration of electric vehicle charging, smart energy solutions, vehicle management, lighting systems, and other interconnected technology into their operations.

Future Energy's solutions provide businesses new brand experience and business intelligence capabilities including equipment automation, process insights, and energy control to operate smarter - and greener.

We offer end-to-end solutions from expert planning and equipment supply to specialized installation, connected business intelligent platforms, comprehensive training, and ongoing maintenance support. Unlock the potential of business-integrated smart technologies, data insights and energy control.
