

Chargepoint revenue growth

Chargepoint revenue growth

CAMPBELL, Calif. ChargePoint Holdings, Inc. (NYSE:CHPT) ("ChargePoint"), a leading provider of networked solutions for charging electric vehicles (EVs), today reported results for its fourth quarter and full fiscal year ended January 31, 2024.

For the first quarter of fiscal year 2025 ending April 30, 2024, ChargePoint expects revenue of \$100 million to \$110 million. At the midpoint, this represents an anticipated decrease of 19% as compared to the prior year's same quarter.

ChargePoint is not able to present a reconciliation of its forward-looking non-GAAP Adjusted EBITDA goal to the corresponding GAAP measure because certain potential future adjustments, which may be significant and may include, among other items, stock-based compensation expense, are uncertain or out of its control, or cannot be reasonably predicted without unreasonable effort. The actual amounts of such reconciling items could have a significant impact on ChargePoint's GAAP Net Loss.

Investors may access the webcast, supplemental financial information and investor presentation at ChargePoint's investor relations website (investors.chargepoint.com) under the "Events and Presentations" section. A replay will be available after the conclusion of the webcast and archived for one year.
