Looking for a reliable and efficient battery for your backup power, home energy storage, or off-grid needs? Look no further than the CHINS 12V 400Ah Bluetooth LiFePO4 Battery.

This lithium iron battery offers a lifespan up to 10 times longer than regular lead-acid batteries, thanks to its 2000-5000 cycles. Not only that, but it also provides double the usable capacity while being 30% lighter.

No problem! These batteries can be connected in parallel or series for larger capacity and voltage. Versatile and reliable, the CHINS Bluetooth LiFePO4 Battery is the ideal choice for a wide range of applications, from home energy storage systems to electric vehicles.

When it comes to choosing a battery, durability and efficiency are key considerations. The CHINS 12V 400Ah Bluetooth LiFePO4 Battery offers exceptional performance and an array of features that make it a standout option for various applications.

Unlike traditional battery monitors, this battery allows you to connect to it through a mobile phone app, providing you with real-time data such as battery voltage, current, and other important information.

With the mobile phone app, you can easily access data such as battery voltage, current, and other important information. This feature allows for convenient and efficient battery management.

The built-in BMS in this lithium battery acts as a protective shield, safeguarding the battery against overcharge, over-discharge, over-current, and short circuits.

It is designed to withstand the demands of various applications, both indoor and outdoor. The battery's built-in BMS ensures the protection of the battery and enhances its safety features. With rigorous quality control standards, CHINS guarantees a reliable and high-quality product.

Whether you need a reliable power source for backup power systems or want to ensure uninterrupted power supply for critical equipment, the CHINS 12V 400Ah Bluetooth LiFePO4 Battery is an excellent choice.

For those seeking to reduce their reliance on the grid and take advantage of renewable energy options, this battery can serve as an effective home energy storage solution.

Adventurers, campers, and off-grid enthusiasts can benefit greatly from this lithium battery. With its durability
