## Clean electricity nassau

CCE-Suffolk Clean Energy staff are partnering with CCE-Nassau County staff on The Long Island Clean Energy Hub. The Hub is a team of trusted, knowledgeable, community-based organizations in and from your region of the state. They have experience with clean energy, energy efficiency, workforce and economic development, education, home weatherization, health, and housing.

Hubs help and provide information to individuals, small businesses, and affordable housing owners about the benefits of the clean energy economy, ways to reduce energy use and costs, and how to make more informed energy decisions.

The Long Island Regional Clean Energy Hub is operated by Cornell Cooperative Extension of Nassau County (CCE Nassau), as designated by NYSERDA (New York State Energy Research and Development Authority). CCE Nassau is supported in this endeavor by community partners Molloy University, Hofstra University, United Way of Long Island, Renewable Energy Long Island (reLI), and Cornell Cooperative Extension of Suffolk County (CCE Suffolk).

Cornell Cooperative Extension is an employer and educator recognized for valuing AA/EEO, Protected Veterans, and Individuals with Disabilities and provides equal program and employment opportunities.

New York State is embarking on a transition to an inclusive, clean energy-powered economy. All residents, businesses, and communities across the State will have access to new opportunities to benefit from this transition including clean energy careers, home improvements, even rebates for businesses and personal transportation. But there's a lot of information out there, and people may not know where to start.

To help New Yorkers access and navigate these opportunities, NYSERDA created the Regional Clean Energy Hubs. Clean Energy Hubs connect people to the clean energy economy.

The Long Island Regional Hub is a team of trusted, knowledgeable, community-based organizations in and from your region of the state. They have experience with clean energy, energy efficiency, workforce and economic development, education, home weatherization, health, and housing.
