

Container home with solar panels

Container home with solar panels

Crave energy independence? No utilities on your land? The Hideaway 40" high cube container is the perfect single-container prefab off-grid cabin. Built for durability and efficiency, this eco-friendly home allows you to enjoy modern amenities like solar panels and a composting toilet, while minimizing your environmental impact - all while enjoying the freedom of energy independence.

The Trailblazer shipping container house redefines off-grid living with its spacious layout, advanced solar system, rainwater collection, and eco-friendly appliances. Create your luxurious and sustainable container cabin or home build that fits your needs and lifestyle. Enjoy a peace of mind with a durable home that isn't connected to the grid.

Looking to downsize and embrace a simpler lifestyle? The Voyager, our two-bedroom off-grid cargo container home, is the perfect option. With our modular design and multiple inverter options, you'll enjoy all the comforts of modern living with practically no utility bills. Experience 640 square feet of freedom and sustainability.

We started out building high-end traditional homes and carried over our legacy of high-end craftsmanship to the container business. Every single one of our builds is made with the same standard and quality as the last.

We believe in doing business the old-fashioned way by delivering on our promises, offering a quality container home on time and done right the first time. Count on us to complete your project with a handshake and smile.

We believe our customer service sets us apart, with the level of detail from start to finish, our goal is to exceed our customer's expectations through the whole process.

In 2024, we proudly launched our line of off-grid container homes, fueled by our passion for energy independence and sustainable living. Founded in 2015 by Robert Wagoner, an innovator in alternative architecture, Custom Container Living is dedicated to providing exceptional off-grid experiences. Our homes integrate solar power, water catchment systems, and other eco-conscious features, empowering you to live free of the grid.

Looking for the perfect container home floor plan? Enter your email address to download our comprehensive guide and explore a wide range of floor plans, including studios, single and multi-bedroom homes, and even off-grid options. Your dream home is just a few clicks away!
