Democratic republic of the congo solar energy storage

Taking advantage of the Democratic Republic of the Congo's (DRC's) significant solar energy potential, renewable energy developer, Bboxx, and telecommunications operator, Orange Telecom, partnered this month for the launch of a solar mini-grid project in the Central African country that aims to connected over 600 households to clean energy solutions by the end of the year.

Situated approximately 10km from Bakavu, the capital of the South Kivu Province, the solar plant was constructed by GoShop, the largest distributor of large solar systems in the country.

The MSGBC Oil, Gas & Power conference remains the only event entirely dedicated to exploring energy opportunities in Mauritania, Senegal, The Gambia, Guinea-Bissau and Guinea-Conakry.

Delegates are able to access high-level insights from African policymakers and government officials, one-to-one investor matchmaking services and exclusive oil and gas market forecasts.

Amid first LNG exports and revitalized oil production, the Republic of Congo will host the inaugural forum on March 25-26, 2025, hosted by the Ministry of Hydrocarbons.

Kinshasa, the Democratic Republic of Congo, November 25, 2021 - To scale up clean energy production capacity in the Democratic Republic of Congo, IFC, Globeleq, CIGenCo, Greenshare Energy, Greenshare Congo, Volt Renewables, and Nzuri Energy have partnered to develop a large-scale solar power production plant in the country.
