

Electric vehicle charging infrastructure montenegro

Welcome to our webpage dedicated to electric vehicle charging stations in Podgorica, Montenegro! As the capital city of Montenegro, Podgorica offers a unique blend of stunning natural landscapes and a growing electric vehicle infrastructure. With our comprehensive guide, EV owners can easily locate and access charging stations throughout the city, ensuring a smooth and sustainable journey in this beautiful destination.

To learn about the charging costs at any location on the map, simply click on the pin icon. You'll see a cost field that displays pricing information contributed by fellow charger users. Occasionally, you can also find pricing details included in the charger's description. However, please keep in mind that pricing information may not be available for certain locations.

To pinpoint Tesla-compatible charging stations, click on a specific station pin on the map. Examine the station details for information on available connectors; Tesla-compatible stations will specify Tesla-specific connectors. Don't forget to check user reviews and comments for additional insights.

The score attributed to a charging station represents user experiences, graded on a scale from 1 to 10, with 10 indicating the highest satisfaction. If users report negative experiences, the station's score decreases, while positive reports elevate it. Scores remain unchanged by neutral comments or check-ins. For a more comprehensive understanding of the factors influencing each score, we recommend reviewing location comments. You can easily find PlugScores via the Station Summary icon on the map.

Today Podgorica got its first public Electric Vehicles charging station that will help develop a network of electric vehicle charging points in Montenegro. By the end of October two more will be installed in Podgorica, adding up to the total of 11 across the country.

Electric mobility is an industrial choice as much as it is an environmental requirement. From a sustainability perspective, the environmental burden caused by transport must be reduced significantly.

Mayor of Podgorica Ivan Vukovic said ""that there is no more significant topic than the topic of environmental protection. I think the Paris Agreement, which aims to mitigate the negative effects of climate change, is probably the most important document of our time, and I am very pleased that Montenegro is part of that story"".

Director of the Directorate for EU Integration and International Cooperation Igor Gradjevic announced that the Ministry of Sustainable Development and Tourism, has already considered taking activities and measures together with other relevant Ministries in order to look at modalities such as electric car tax credits and other incentives necessary to motivate citizens to buy electric vehicles.
