

Electrical enclosure specifications

An electrical enclosure is a purpose-built cabinet designed to house electrical and electronic devices, providing the required protection to keep operators/personnel safe from electrical shock hazards and devices protected from hazardous environments as well as accidental

Comparison Between NEMA Enclosure Type Numbers and IEC Enclosure Classification Designations. IEC Publication 60529 Classification of Degrees of Protection Provided by Enclosures provides a system for specifying the enclosures of electrical equipment on the basis of the degree of protection provided by the enclosure.

Nema Enclosures designs and manufactures NEMA rated electrical enclosures in the following NEMA standards: NEMA 1 Indoor use to provide a degree of protection to personnel against access to hazardous parts; To provide a degree of protection of the equipment inside the enclosure against ingress of solid foreign objects (falling dirt) NEMA 3

By accepting orders directly from our customers, our proprietary ordering and sheet metal fabrication process allows us to manufacture and ship a large variety of standard enclosures in as little as 5 days.
