Cabo Verde recorded the highest electricity price for households in Africa. As of September 2023, one kilowatt-hour costs around 0.31 U.S. dollars in the country. Kenya and Mali followed, with households paying 0.22 U.S. dollars per kilowatt-hour. Burkina Faso, Gabon, and Rwanda also recorded relatively higher prices for electricity on the continent. On the other hand, Angola, Libya, Ethiopia, and Sudan registered the lowest prices for electric energy in Africa.

In Africa, countries with high electricity prices for households also tend to have higher prices for businesses. For instance, Cabo Verde, Burkina Faso, and Kenya's energy prices for companies placed them among the most expensive four countries on the continent. As of late 2023, the electricity prices stood at around 0.2, 0.2, and 0.19 U.S. dollars per kilowatt-hour, respectively.
