The Energy Regulatory Commission is responsible (among other functions) for regulating the generation, transmission and distribution of electricity in Thailand. The market is dominated by three main state-owned utilities: Electricity Generating Authority of Thailand (EGAT). Metropolitan Electricity Authority (MEA).

Energy system of Thailand. Thailand"s energy policy focuses on reducing dependence on natural gas to enhance energy security. With the costs reduction of variable renewable energy, conventional Thai power generation starts giving way to alternative sources. The country"s energy policy must evolve to accommodate this change.

The energy situation in the first eight months of 2015 and outlook for 2015; Xayaburi Hydroelectric Power Project; Thailand - Myanmar''s Energy Cooperation Projects; Electricity Trade between Thailand and Malaysia. Power Purchased from Laos PDR. Economic and Power Trading in the Greater Mekong Sub-region; Thailand energy report 2015; Energy ...

The new PDP called "Thailand Power Development Plan 2015-2036 (PDP2015)" focuses on (1) Energy Security: coping with the increasing power demand to correspond to National Economic and Social Development Plan and taking into account fuel diversification (2) Economy: maintaining an appropriate cost of power generation for long-term economic ...

This report concludes work area one of the joint work programme among the Electricity Generating Authority of Thailand (EGAT), the Ministry of Energy of Thailand and the International Energy Agency (IEA), and has benefited from data and input from the Thai counterparts. The analysis is based on a PLEXOS model of the Thai power system that has been developed by the IEA in cooperation with EGAT.
