

Energy storage companies south africa

Energy storage companies south africa

We are proud to have been manufacturing portable power stations, LiFePO4 batteries, inverters, UPS, and solar charge controllers since 1998, with a team of 500 dedicated employees. Our high-quality products have earned us a well-deserved reputation in the global market.

Stay abreast of breaking news, policy alerts, and educational opportunities and have real-time access to RFPs and other energy storage procurement announcements.

A central resource for industry news, data and other resources. and members can access critical industry research, SAESA policy and public filings, conference presentations and more.

We offer a wide range of leading lithium battery solutions to cover all your needs from our smallest 7Ah 12V gate motor batteries through to our largest 5MWh containerised expandable grid support solutions.

Residential Off-grid and Grid Interactive systems are sized to suit household's specific energy needs tailored to customer budget. Reduce your energy costs and ensure security of supply during grid outages as a bonus!

Including a battery in your solar solution on time of use tariff sites allows you to eliminate grid consumption during high tariff periods (time shifting). The peak grid power draw (maximum demand) can also be limited to save a fortune on monthly utility bills (peak load shaving).
