

Energy storage for peak shaving czech republic

Energy storage for peak shaving czech republic

The device is one of the first large-capacity battery storage systems in the Czech Republic. The Association for energy and battery accumulation AKU-BAT CZ says that the construction of about twenty large battery power storage systems may commence in the Czech Republic.

Solar Global Service a.s. launched in July 2017 the physical implementation of the project CZ.01.3.14 / 0.0 / 0.0 / 16_043 / 0007265 "Energy Storage Innovation at Solar Global Service a.s."

The implemented project is focuses on innovative technologies that the applicant does not currently have, and which now are not commonly used in the Czech Republic. Specifically, it is a battery system for energy accumulation. By acquiring and installing a battery system, the applicant seeks a completely new and innovative concept of electricity management (or trading), which, according to available information is unique, not only in the Czech Republic but also within the European area.
