Eve lifepo4 280ah

Introducing the EVE LF280K Grade A Cells - 3.2V LiFePO4 280Ah Battery. Experience the power and reliability of this cutting-edge energy storage solution. Designed by EVE Energy, a renowned manufacturer in the field, this battery offers unmatched performance and durability.

The brand new, Grade A EVE LF280K cells are guaranteed to match in voltage, capacity, and internal resistance, ensuring optimal performance. With flexible bus-bars and 4 nuts and bolts included, installation is a breeze. The nickel-plated copper components provide excellent conductivity and corrosion resistance.

What sets this battery apart is its exceptional longevity. With a design life of over 10 years and an impressive 6,000 cycles, it delivers reliable power for extended periods. Whether it's powering your electric vehicle, renewable energy system, or industrial application, this battery is up to the task.

We stand behind our Grade A claims and know you will be more than satisfied with the product you receive. We offer a 30 Day no hassle, MONEYBACK GUARANTEE if you are unsatisfied with your cells for ANY reason. You will be responsible for the return shipping fees unless product is determined to be faulty.

We offer a 1 year warranty on all EVE LiFePO4 battery products. We offer technical support and troubleshooting throughout the duration of the warranty. We can offer greater than a 1 year warranty on the cells but you will need to contact us with your design specs for approval. Large orders of 1,000pcs+ minimum.

If it is determined that our product is obviously faulty, we will ship new product to you immediately. We will cover the cost of return shipping. This does not apply to items that have been damaged due to gross negligence, normal wear & tear, improper installation or abuse.

Our warranty does not cover items that have been damaged due to gross negligence, improper installation or abuse. If you are unsure, you should contact us before installing the product.

Every delivery's carbon footprint is calculated based on weight, shipping method, and distance traveled. We neutralize these emissions by purchasing verified carbon removal credits from groundbreaking projects.

With your purchase, you'll join a community of proactive merchants and customers dedicated to a sustainable future. Together, we've removed emissions for over 42 million deliveries and removed over 29 thousand tonnes of carbon.
