Eve lifepo4 304ah

Select a charger and fill your battery information in the page of the charger with any other requirement. We will follow your information and customize charger accordingly.

4S-96S LiFePO₄ BMS. This type of BMS is most widely used with the feature of reliable and good cost performance. Resistor bleeding cells balancing is the most widely used cells balance technique

4S-96S LiFePO₄ BMS. Cells balance by capacitor energy storage and transfer technique which is working during charging, discharging and static state. It balances cells by energy transfer from higher cell to lower cell (by nominal 100mA). Save energy and reduce heat emission in balance process

EVE Battery 3.2V 304Ah high-power Lithium iron phosphate cell which has long cycles for Solar Energy Storage Solar power system UPS. Engine starting battery, electric bicycle/motorcycle/scooter, golf trolley/carts, power tools, Solar and wind power system, RV, caravan.

LYTH Battery - The Top Battery company for your Lithium Battery Solution & High-Performance LiFePO₄ Prismatic Battery. LYTH LiFePO₄ cells have a wide range of applications, such as utility and renewable (solar and wind) energy storage, electric and hybrid vehicles (buses, cars, and trucks), uninterruptible power supply (UPS) for data centers, cell tower/communications power, marine vessels, stationary power generators and AGV (Automated Guided Vehicle), RV (Recreational Vehicle) and etc.

E-bike, Golf cart, Solar street light, Forklift, UPS, yacht, AGV (Automated Guided Vehicle), RV (Recreational Vehicle), Electric vehicle, Energy storage system (ESS) for wind and solar power, Household storage system and etc.
