India panasonic solar panels

Unlock peak efficiency with oursolar modules reaching up to 21.09%. Backed by a solid 12-year product and 25-year performance warranty, these BIS + IEC certified modules boast a robust design, surpassing industry standards with 3800 Pascal wind resistance. Perfect for rooftops, they come in M10-10BB-132 cells with a slim 35mm/40mm frame, certified for corrosion and PID resistance.

Experience top-tier efficiency with oursolar modules reaching up to 21.32%. Designed with M10-10BB-144 cells and a sleek 35mm/40mm frame, these modules offer a robust solution for your energy needs. Backed by a 12-year product and 25-year performance warranty, BIS + IEC certified, they withstand 3800 Pascal wind resistance - 158% higher than industry standards. Explore the versatility with DCR available in 535WP, certified for corrosion, ammonia, salt mist (Severity 6), and PID resistance, making them an ideal choice for enduring rooftop installations.

Panasonic is a well-recognized brand name in the technology industry and the company's expertise also extends to solar energy. Panasonic solar panels are a leader in the manufacture and sales of these solar panels. Originally under the SANYO brand, the company has been developing photovoltaic technology since 1975. Panasonic Solar panels are the result of over 40 years of research and innovation and this is evident in the quality and reliability of their solar panels.

These panels have shown great and consistent results over their usage. They ensure that various industrial units have a reliable source of power. Do contact Panasonic distributors in India like Sun-ap EcoPower to get the most benefits of solar panels. Get the most optimised energy consumption and contribute to your company's eco-friendly initiatives.
