Kathmandu solar energy companies

Nepal Solar Farm Limited is a pioneering renewable energy company based in Kathmandu, Nepal. Established on September 18, 2017, our mission is to harness the abundant solar energy potential of Nepal and contribute to the country's transition towards sustainable and clean sources of electricity.

Tempus nec leo hendrerit proin malesuada aliquam neque felis dapibus montes erat, penatibus feugiat himenaeos pharetra morbi convallis habitant mattis fusce netus quis vulputate.

At Nepal Solar Farm Limited, we are dedicated to facilitating faster adoption of renewable energy technologies across Nepal with an end goal of global sustainability. We visualize a Nepal whose energy sourcing is revolutionized using sunlight, wind and other clean energies.

We endeavor to offer innovative, economical and eco-friendly alternatives for conventional methods of generating power through which we can reduce the reliance on oil imports thus mitigating the environmental implications of traditional burning biomass. These include larger solar PV farms, wind turbines or CSP plants among other types of renewables that make our future in terms of electricity generation more sustainable in order to become stronger and survive any problems or difficulties that may come up in future.

Our aim is to provide reliable, affordable and easy-to-maintain renewable projects that not only produce electricity required by our various communities but also help preserve our natural resources. Our view is that investment in green energy infrastructure will drive economic progress while improving energy security and combating climate change.

This way you are part of this transformational process toward greener Nepal through partnering with Nepal Solar Farm Limited. Together, let us envision an era when our lives will be powered by clean sources of energy such as renewables.

We have been installing Solar Home Systems (SHS), Hybrid Solar PV systems (HSS), Institutional Solar PV systems (ISPS), Solar PV Water Pump Systems (SWPS), Solar PV Vaccine Refrigerator, Solar Fencing at different places across our nation. Several on-grid and off-grid projects are yet to be done in the near future.

SSE provides warranty and after sales service along with other maintenance and repairs of solar products through its head office, branch offices and its local agents. Almost all the agents are qualified engineers and technicians, some of them even possess CTEVT Level II certificates making them junior engineers.

CSRWe feel proud to mention that SSE is geared up to take the initiative to give back to the society every chance we get. Distribution of Solar Home Systems to Landslide Victims of Sindhupalc..

Kathmandu solar energy companies

Currently we are in need of employees in the respective fields as stated below:1. Technical Overseer/ Technician(2) -userfiles/Technical Overseer(2).pdf2. Site Engineer (1)-use..

Sunshine Energy Private Limited (SSE) is an ISO 9001:2008 standard of quality certified company established in 2004, and is a private company registered in Nepal Government's Company Registrar's Office (Reg. No. 30582/061-62). It is owned by a group of professionals dedicated to alternative energy promotion. It is located in Samakhushi, Kathmandu, Nepal.
