

Lifepo4 battery 3 2v 6000mah

Lifepo4 battery 3 2v 6000mah

With a nominal voltage of 3.2 volts and a capacity of 6000 mAh, this battery delivers reliable and long-lasting power for a wide range of applications. The 32700 size ensures compatibility with various devices, from electric vehicles and solar energy systems to portable electronics and power tools.

Built with Lithium Phosphate (LiFePO₄) chemistry, this battery offers outstanding benefits. It is free from memory effect, allowing you to charge it at any time without the need for full discharge. This provides convenience and flexibility in managing your power needs.

The battery's high energy density and lightweight design make it an excellent choice for portable applications. Weighing just 141 grams (5 ounces), it offers a remarkable power-to-weight ratio, enabling you to power your devices without adding unnecessary bulk.

Safety is a top priority, and this LiFePO₄ battery excels in that aspect. With its non-explosive nature and advanced design, it provides a much safer overall performance compared to traditional lithium-ion batteries. This makes it a reliable and secure choice for your power needs.

With a maximum charging current of 3 amps and a maximum discharging current of 18 amps, this battery is designed to handle high-demand situations. Whether you're using it in high-performance devices or applications that require rapid charging, this battery delivers the power you need.

Thanks to its long storage life, you can rely on this battery to retain its charge even when stored for extended periods. It is engineered for up to 2000 charge cycles, offering exceptional longevity and durability for your devices.

Choose the 3.2 Volt 32700 LiFePO₄ Battery from Power Portable and experience the advantages of a technologically advanced and high-performance power solution. Whether you're an automotive enthusiast, a renewable energy enthusiast, or simply need reliable power for your everyday devices, this battery is designed to meet your requirements with superior efficiency, safety, and performance.

We feature offers with an Add to Cart button when an offer meets our high standards for: Quality Price, Reliable delivery option, and Seller who offers good customer service "No featured offers available" means no offers currently meet all of these expectations. Select See All Buying Options to shop available offers.

Type: LiFePO₄ Nominal Capacity: 6000mAh Set Type: Batteries Only Battery Number: 1-10 Product Name: iron phosphate cell Charging voltage: 3.65V Charging method: CC/ CV Charging temperature: 0-60°C Features 2: 5C Continuous Discharge Features 4: 32650 6000mAh LiFePO₄ Batteries Features 6: 8 in series 24V LiFePO₄
