## Lithium hydroxide price chart

Stocks: 15 20 minute delay (Cboe BZX is real-time), ET. Volume reflects consolidated markets. Futures and Forex: 10 or 15 minute delay, CT. Market Data powered by Barchart Solutions. Fundamental data provided by Zacks and Morningstar.

The Quote Overview page gives you a snapshot view for a specific futures symbol. During market hours, delayed exchange price information displays (Futures: 10 minute delay, CT) and new delayed trade updates are updated on the page (as indicated by a "flash").

This section shows the Highs and Lows over the past 1, 3 and 12-Month periods. Click the "See More" link to see the full Performance Report page with expanded historical information.

A seasonal chart is designed to help you visualize how futures contracts have performed during a calendar year. They help show patterns and price trends for commodities whose prices often change with the seasons.

Find exchange traded funds (ETFs) whose sector aligns with the same commodity grouping as the symbol you are viewing. Analysis of these related ETFs and how they are trading may provide insight to this commodity.

This widget shows the latest week's Commitment of Traders open interest. The COT data, as reported by the US Commodity Futures Trading Commission (CFTC), is from Tuesday, and is released Friday by the CFTC. Reporting firms send Tuesday open interest data on Wednesday morning. The CFTC then corrects and verifies the data for release by Friday afternoon. The Barchart site's data is then updated, after the official CFTC release.

You will see the Long and Short positions from the Legacy Commitments of Traders report, plus either the Long and Short positions from the Disaggregated Report or the Financial TFF Report.
