

Luminous solar inverter nxg 1150

Luminous solar inverter nxg 1150

NXG Solar UPS uses Intelligent Solar Optimization Technique (ISOT). Once the batteries get charged, it cuts off grid power and supplies electricity through solar panels thus maximizing solar energy usage. This helps you save up to 3 units of electricity per day. Substantial money savings in the long run.

Luminous Solar Inverter – NXG 1150 is a 850VA pure sine wave solar inverter with ISOT technology. It can be used to power homes, offices, and shops. It has a maximum supported panel power of 850Wp and a charge controller rating of 50 Amp. It supports single battery and comes with a 24-month warranty.

Capacity (VA): 850VA Operating Voltage 90V-290V Max supported panel power: 12V upto 850 Wp Charge Controller Rating – 50 Amp Supports single battery 24 Month Warranty BIS certified as per IS/IEC standards which is mandatory for all solar inverters 3 User Settable Saving Modes: Solar Mode,

Solar+Grid Mode and Grid+Solar Mode Power savings of 1.5 – 3 units per day* with the help of Intelligent Solar Optimization Technique (iSOT). Max Capacity Utilization: Connect Solar Panels equivalent to Solar Inverter's VA ratings. Powerful charging even at low voltage (90V) making it ideal for areas having low voltage issues. Pure Sine wave output for safety of your sensitive appliances and noiseless operations. Safe for your family and appliances: Short-circuit protection, Over temperature protection, Overload protection, No load shutdown.
