Maputo solar energy companies

A URANUS SOLAR oferece produtos diversos de ilumina??o e gera??o, desde sistemas dom?sticos de ilumina??o e de gera??o de renda fora da rede, sistemas de ilumina??o p?blica, de entretenimento, entre outros. A gama de produtos fornecidos pela URANUS SOLAR inclui, mas n?o se limita a, candeeiros diversos de ilumina??o, lanternas, r?dios, televisores de tamanhos diversos, sistemas de irriga??o, bombas de ?gua, entre outros.

A URANUS SOLAR foi fundada especialmente para contribuir para a resolu??o dos problemas enfrentados pelas comunidades rurais em todo o pa?s, atrav?s da distribui??o e instala??o de sistemas solares.

To improve the quality of life and leverage the income of rural communities in Mozambique, leading to long-term progress by educating about the importance of using modern communication technologies and the mobile payment wallet, combined with the need to protect the environment against climate change.

The URANUS SOLAR was founded especially to help solve the problems faced by rural communities throughout the country through the distribution and installation of solar systems.

We are developing projects based on a diversified energy matrix and location, whilst in turn acting to generate sound financial returns for our shareholders and investors. Our motto "What Happens Next" reflects our constant drive to break boundaries and innovate, while at the same time standing by with our core values of accountability, transparency and collaboration.

Join us in our journey to make our world more sustainable. More about us
Nacala Solar and Storage Project
WHN Solar is currently developing a solar photovoltaic plant of up to 100 megawatts (in increments of 20-40 MW) next to the Nacala International Airport, in the Province of Nampula, Mozambique. A key feature of the plant is an energy storage facility with up to 50 MW capacity.

The feasibility study for the projected is being funded by a grant awarded by the U.S. Trade and Development Agency (USTDA). WHN Solar has selected HDR international to conduct the study and is developing the project with the support of Fieldstone Africa.

URANUS SOLAR offers diverse lighting and generation products, ranging from domestic lighting and off-grid income generation systems, public lighting systems, entertainment systems, among others. The range of products supplied by URANUS SOLAR includes, but is not limited to, various lighting lamps, lanterns, radios, televisions of various sizes, irrigation systems, water pumps, among others.
