## Nicosia power outages

A severe storm has swept across the country, causing widespread damage. Uprooted trees, collapsed roofs, blocked roads, and power outages have been reported. Authorities have urged residents to remain indoors and contact emergency services if needed.

**Warning in Nicosia** Nicosia Mayor Mehmet Harmancı announced via social media that municipal teams are on standby for emergencies. He assured citizens that they can access the 24/7 Alo 185 Solution Line for assistance.

**Severe Damage in Kyrenia** In Kyrenia, the storm caused significant damage, including a roof blown onto the Alsancak-Kyrenia Bypass, blocking the road. Mayor Murat Denkül criticized the lack of adequate preventative measures and urged residents to stay indoors. "We face a serious storm—roofs are flying, trees are uprooted, and the electricity grid is overwhelmed," he stated.

**Electricity Outages and Emergency Response** The Cyprus Turkish Electricity Authority (Kıbrıs Elektrik) reported widespread outages, with teams working tirelessly to restore power.

**Ports and Traffic Affected** The storm has also disrupted port operations. In Nicosia, a tree fell on Dr. Fazıl Kocak Boulevard, causing traffic delays.

**Emergency Teams on Alert** Mayor Hacı Mustafa confirmed that emergency teams are on high alert as the storm is expected to persist until morning. He advised residents to remain cautious.
