

# Northern cyprus electric vehicle range

## Northern cyprus electric vehicle range

A new electric car manufacturer named G&#252;nsele has appeared from the north of Cyprus. The manufacturer has been working on a compact electric car since 2016 - which will soon go into series production. The G&#252;nsele B9 is a two-door compact model with 140 kW of power and a 52.6 kWh battery integrated into the vehicle floor.

MG4 EV is our first fully-electric hatchback car. With up to 520 km of electric range\* and two battery options, standard features include a 10.25" colour touchscreen with Apple CarPlay™ and Android Auto™, MG iSMART app connectivity, and our MG Pilot suite of driver assistance systems, making MG4 EV the no compromise electric car.

A new electric car manufacturer named G&#252;nsele has recently emerged from the northern part of Cyprus. The company has been working on a compact electric car since 2016, and it is now ready for series production. The G&#252;nsele B9 is a two-door compact model that boasts 140 kW of power and a 52.6 kWh battery integrated into the vehicle floor.

MG4 EV is our first fully-electric hatchback car. With up to 520 km of electric range\* and two battery options, standard features include a 10.25" colour touchscreen with Apple CarPlay™ and Android Auto™, MG iSMART app connectivity, and our MG Pilot suite of driver assistance systems, making MG4 EV the no compromise electric car.

Choose our Trophy Long Range and you will also benefit from a 360° Parking Camera, Satellite Navigation, Heated Front Seats and Steering Wheel, and Mobile Phone Bluetooth Key.

\*Range applies to All-New MG4 EV Trophy Extended Range with the 77kWh battery from a single charge on the WLTP combined cycle: Combined Range 520 km; City Range: 708 km; Combined Driving Efficiency: 16.7 kWh/100km.

Other unique exterior features include the Active Grille System\* regulating airflow into the front compartment to help you achieve optimal battery range, and the two-tone black roof^^ and Twin Aero Rear Spoiler^

Thanks to its thin battery and long wheelbase, MG4 EV offers plenty of headroom and generous amounts of legroom. The 10.25" colour touchscreen comes with Apple CarPlay™ and Android Auto™ as standard giving you complete connectivity at your fingertips.

Your safety and that of other road users is our number one priority, and that's why we offer an advanced suite of driver assistance systems called MG Pilot to help ensure a safe, relaxing and comfortable driving experience. The systems that make up MG Pilot on MG4 EV are:

- Active Emergency Braking with Pedestrian and Bicycle Detection- Lane Keep Assist with Lane Departure Warning System- Traffic Jam Assist- Intelligent Speed Limit Assist with Traffic Sign Recognition- Intelligent High Beam Assist- Adaptive Cruise Control- Driver Attention Alert-Blind Spot Detection^ - Lane Change Assist^ - Rear Cross Traffic Alert^ - Door Opening Warning^

The MG iSMART app allows you to control many functions of your MG4 EV including charging, checking your vehicle status, finding your nearest charging point, as well as pre-starting the climate control system.

^10-80% charging time applies to MG4 EV SE/Trophy Long Range with the 64kWh battery using a 150kW Ultra-Fast charger under standardised test conditions. Charging times in real world conditions will vary dependent on a number of factors, including but not limited to the age of battery, charging conditions, temperature and the existing charge of the battery, charger used and duration of charge. Charging times will be increased when using chargers of a lower capacity. Availability of 150kW-capable chargers may be limited depending on your location.
