

Riyadh commercial solar

Riyadh commercial solar

“We are proud to be ranked among the top 15% of establishments in KSA in terms of quality evaluation and technical staff, based on the Contractor Classification System issued by the Ministry of Municipal and Rural Affairs”

Essco is a certified company as a provider of Solar Energy Solutions in Saudi Arabia. We believe in the necessity of shifting towards renewable energy and being environmentally friendly.

We look forward to becoming a community partner in the transformation towards sustainable energy and achieving green building standards, be part of the change, and get your solar panel installed!

Energy Sustainable Solutions is a subsidiary of ESSCO which was established to keep pace with the developments in energy efficiency and sustainable development for realizing Saudi Vision 2030.

Millennium Energy Industries (MEI) is a leading turnkey solar solutions provider operating internationally and in the MENA region. Our vision is to enhance the utilization of solar energy as a primary source of energy that is economically reliable & cost effective. We provide turnkey solutions such as solar heating, cooling, steam, and/or power (PV/CSP) for industrial, commercial, and residential clients.

Our largest reference attests to MEI's capability, having successfully engineered and implemented the world's largest rooftop installation of a 25MWth Thermal Solar district heating plant at Princess Noura University in Riyadh, Saudi Arabia. MEI won the Global District Energy Climate Award for this project in 2012.

MEI provides impeccably designed, well engineered and executed reliable Solar solutions for discerning clients seeking optimal operations that are efficient, energy saving and environmentally friendly.

MEI designs and installs the highest quality solar energy systems on time, safely, with highest customer satisfaction. Green solutions that are cost-effective and with an excellent return on investment.

MEI succeeded in in-house engineering development to introduce and create new products & solutions that satisfies specific results; solar desalination, HFO tanks heating, mining industry, solar thermal cooling, among other.

MEI provides financing solutions such as LTO where clients settle monthly installments for a few number of years. With no capex from the client, the scheduled installment value should be less than the clients' actual monthly fuel bill by 30% – 50%, realizing savings from day 1, and thereafter enjoying total savings for the remaining life time of the installed solution.
