Solar World Botswana is your ultimate destination for comprehensive solar energy solutions. Our mission at Solar World is to deliver dependable solar PV power plants that cater to all your energy requirements. Each system's size is meticulously tailored to fulfill our clients' specific needs, taking into account their load data for optimal performance.

In our efforts to spread renewable energy we deliver affordable electricity and increase energy access especially in areas without grid connection, raise awareness of climate change by suggesting safer solutions to our growing energy needs.

Our seasoned engineers have expertise in detailed engineering, construction, and operation. Our target is to provide home solar systems, solar geysers, big rooftop PV systems for malls and warehouses as well as hybrid PV and water pumping systems for farms and mines.

Solar World Botswana successfully revitalized and rejuvenated the water system at a resort farm located in Ranaka. As a result of this effort, the community has experienced a significant boost in morale and has enthusiastically resumed their mission to enhance the resort, restoring the lush greenery that had been adversely affected during challenging times.

Solar World has recently embarked on a significant project to enhance a borehole located approximately 30 kilometers on the outskirts of Kanye. This borehole, which extends to a depth of 75 meters, plays a pivotal role in supplying water to a community situated about 3 kilometers uphill, where it is of utmost necessity. Thanks to the unwavering dedication of Solar World Botswana, this essential community requirement is now effectively met.
