Energy Efficiency (Standards and Labelling) Order 2021 (SLO) was introduced by the Department of Energy at the Prime Minister's Office as part of its Energy Efficiency and Conservation initiatives. This standard would require manufacturers, suppliers, wholesalers, and retailers in Brunei Darussalam to import and sell electrical appliances that meet consumers' Minimum Energy Performance Standards.

The "hibernate mode" turns the computer off in a way that doesn't require you to reload everything when you switch it back on. Allowing your computer to hibernate saves energy and is more time-efficient than shutting down and restarting your computer from scratch. When you're done for the day, shut down.

Sustainable Energy Division (SED) is responsible for the Policy Development and implementation of all core Sustainable Energy Initiatives and Projects, in particular Energy Efficiency & Conservation (EEC) & Renewable Energy (RE) projects. The division is also accountable to ensure that all EEC & RE projects shall be an Integral Part towards Economic and Environmental Sustainability.

Renewable Energy Unit is responsible for promoting and developing all plans and programs related to Renewable Energy (RE) nationwide. The roles and responsibilities of Renewable Energy Unit is to continuously monitor and facilitate the progress of Renewable Energy projects (off-grid and grid-connected) in Brunei Darussalam. To implement or facilitate Renewable Energy policies to increase the widespread use of renewable energy technologies in Brunei Darussalam. More information on RE services [click here](#)

To facilitate the implementation of all EEC policy related matters and EEC plans of action which help to reduce energy consumption towards more efficient use of energy nationwide. More information on EEC [here](#).

Net metering is a programme that allows residential and commercial customers who generate electricity from Solar Photovoltaic (PV) system to sell excess electricity back to the national grid. Customer will receive credits to offset their electricity bills.

*Disclaimer: Ministry of Energy is currently undergoing pilot project on Net-metering. Thus, the Net-metering Programme will be opened once the pilot project is completed. All required forms can be downloaded under the [downloadable](#).

The Ministry welcomes any interested visitors to tour the Tenaga Suria Brunei, the first and currently the only On-Grid Solar Photovoltaic (PV) Power Plant in Brunei Darussalam.

Ministry of energy through Sustainable Energy Division (EEC Unit) is giving talks on Energy Saving to
