

Solar energy policy poland

The Energy Policy of Poland until 2040 takes into account changes in the energy mix, as well as the need to ensure: energy security, fair transformation, recovery after the COVID pandemic, stable labor market, sustainable development of the economy and strengthening its competitiveness with optimum use of Poland's own energy resources.

The energy policy of the state is defined by the Minister of Energy pursuant to Articles 12, 13-15 of the Energy Law, and is implemented by a range of actors, including the Minister of Energy and the Council of Ministers. The document contains a description of the conditions and determinants of the Polish energy sector, the

The Polish government has approved Poland's energy policy until 2040 (PEP2040), which sets the framework for the energy transformation in the country. It is the first strategic document regarding Polish energy approved in 12 years. It presents solutions to meet EU climate and energy goals such as the construction of offshore wind capacity or ...

Poland's National Energy and Climate Plan for the years 2021-2030 (NECP) was submitted to the European Commission on December 30, 2019. The NECP PL consists of three parts - a strategic one and two analytical attachments. The full version is available in Polish, please find below the summary in English.

Poland's existing energy policy has guided some decarbonisation action to date, but it is in desperate need of an update. The politics of energy in Poland is caught up in the ruling coalition's courting of a conservative electorate and the defence of "sovereignty" against the EU.

Poland's National Energy and Climate Plan for the years 2021-2030 (NECP) was submitted to the European Commission on December 30, 2019. The NECP PL consists of three parts - a strategic one and two analytical attachments. The full version is available in Polish, please find below the summary in English. The English version provided by automatic translation tool is available on the European Commission's website about NECPs.

Poland is currently working on the update of the NECP. Initial version was sent to the European Commission on March 1, 2024. The initial draft is available in Polish, and the English version provided by automatic translation tool is available on the European Commission's website about NECPs.

The updated draft of the NECP, including a new ambitious scenario and additional attachments has been sent for public consultation on October 2024. The full version is available in Polish, please find below the Summary in English. The NECP PL and its update have been developed in fulfilment of the obligation set out in Regulation (EU) 2018/1999 of the European Parliament and of the Council of 11 December 2018 on the

Governance of the Energy Union and Climate Action […].NECP presents the objectives, targets, policies and measures in five dimensions of the Energy Union:

The Africa programme analyses the geopolitics of the Africa-Europe relationship. In particular, the programme delves into relations between the African Union and the European Union to find creative foreign policy tools and strategies. It also focuses on two regions that are particularly relevant for Europe: the Horn of Africa and the Sahel.

The Asia programme seeks to help Europe recalibrate its relationship with China and its Asian partners. The programme analyses China's domestic situation, its role in the region, and its increasing global influence. It also places a renewed emphasis on fostering Europe's relationships with the Indo-Pacific, especially India and Japan.
