

Solar generator lifepo4

Solar generator lifepo4

2-5 business days shipping

3+2 Years Warranty

30-Day Money back

It is rated for 4000 full charge cycles, at that point you will have about 70% of your original capacity, and it will gradually reduce from there. (it's not to say the battery only has 4000 cycle life span. Among 4000 cycles, the unit can exert its best performance. It would not perform its best after 4000 cycles because of internal wastage.)

We strongly do not recommend using other solar panel brands to recharge Jackery power station products since we cannot guarantee other brand quality and provide an after-sale service - for instance if damaged through using other company"s solar panel brands.

We provide 3+2 year warranty for Explorer 2000 Plus. A 5-year total warranty (includes a 2-year extension) for Jackery website orders, and for Amazon orders, please register your item on the official website: <https://support.jackery/extend-warranty> to get the extra 2-year warranty.

Up to 6 solar panels can be connected simultaneously to charge the E2000 Plus will take 2 hours fastest to fully charge the item if you plug in 6*200W Jackery solar panel.

Like many reviews prior to purchasing, pulled the 2000 Plus out of the box and it displayed 48% charged. Then unwrapped the 200 watt solar panels and plugged in, set in full afternoon sun, and watched the input wattage go to 340! Very impressive since it was late in the afternoon.

Everything works great! Very satisfied with the entire package; it will do exactly what I need it to and highly recommend this unit to everyone. Super easy to use and maneuver.

Plan is to use it at my home for emergency situations if/when power goes out - which is thankfully not typically very often. Have not had to use it during a power outage yet, but during a a day of testing- it performed well running our kitchen refrigerator, home Wi-Fi, lamp and fan... plus separately an air fryer and coffee maker. The air fryer was the biggest hog reducing battery life, followed by the coffee maker I forgot to turn off.
