## Solar radio app

Following our 40th Anniversary celebration at Dingwalls, Solar Radio can now advise that our charity partners for the event, British Heart Foundation, Macmillan Cancer Support, Motor Neurone Disease (MND) Association and Sickle Cell Society have each been sent a donation of ?1,000.00.

The developer, Solar Broadcasting Ltd, indicated that the app's privacy practices may include handling of data as described below. For more information, see the developer's privacy policy.

The Solar Radio app is a free Android application from Solar Radio Soul that allows users to stream the station's broadcast on their mobile devices. This application is perfect for those who love classic and 21st-century soul music.

The app is straightforward and easy to use, with a simple interface that allows users to navigate through the different categories seamlessly. One of the app's main features is its ability to download data while streaming, which can accumulate quickly. Therefore, it is advisable to ensure that you have a data plan that allows for this type of use before streaming.

Overall, the Solar Radio app is a great addition to any music lover's collection. Its user-friendly interface and ability to stream high-quality radio make it a must-have for anyone who loves soul music.

We have scanned the file and URLs associated with this software program in more than 50 of the world's leading antivirus services; no possible threat has been detected.

We'd like to highlight that from time to time, we may miss a potentially malicious software program. To continue promising you a malware-free catalog of programs and apps, our team has integrated a Report Software feature in every catalog page that loops your feedback back to us.

This application lets you listen to Solar Radio - "Your Classic & 21st Century Soul Station" on your iPhone or iPad. Please note that while this application is open and streaming our broadcast, it is constantly downloading data and this can accumulate quickly. You should first ensure that you have a data plan with your operator which allows for this type of use.
