Sonnen core 10 price

Sleek. Simple. Sustainable. sonnenCore powers your essentials with an all-in-one, high-performance, 100% sonnen engineered solution that packs a punch for the price.

Introducing our newest home battery solution that uses safe, long-lasting, and sustainable technology to keep your solar working and your family up and running even when the grid goes down. sonnenCore seamlessly manages how your home uses clean energy throughout the day.

sonnenCore uses ultra-safe, durable battery technology that comes with an industry leading 10-year or 10,000 cycle product warranty and an expected lifetime energy throughput of 58 MWh (see Warranty for details).

The sonnenCore is a sleek home battery that's as quiet as a whisper and built with batteries that are 100% recyclable (at an R2 facility), so it's good for your home and the planet.

sonnenCore is an evolution in the high-quality energy management solutions that sonnen has been designing for 10+ years, now at an attractive price for cost-conscious homeowners.

Watch how the sonnenCore home battery works throughout the day to maximize and manage your clean energy, reduce your reliance on the grid, and keep you powered during unexpected outages.

Now all Rocky Mountain Power customers in Utah and Idaho can qualify for the Wattsmart Battery Program when they add a sonnen battery to their home. This utility program uses the sonnenVPP to virtually connect batteries across the states, creating a distributed, clean energy power plant that supports the local community and the power grid. As a member of the Wattsmart Program you are eligible for benefits:

Yes, sonnenCore is designed to work with any new or existing solar systems to store excess energy from the sun and the electricity grid. The smart battery management software intelligently controls when the stored energy is used to power your home -during peak times of day, at night or in an outage. While you can install a sonnenCore without solar, we recommend pairing it with solar to power your home with clean energy and keep the lights on during longer outages. Please consult with your sonnen certified installer to design the system that is right for your home.

Yes! Like all sonnen home batteries, the sonnenCore protects your essentials from power outages, including keeping your lights on, your home network running and your refrigerator cold (up to 10kWh). The number and kinds of appliances you can backup varies. Please consult with a sonnen certified installer on your backup power needs to design a system that is right for your home.

Education is the key to understanding how to increase your energy-efficiency and help create a cleaner energy

Sonnen core 10 price

future for everyone. Read about ways a home battery can help you.

An excellent way to make the most of your solar system is by buying a solar battery for your house. However, there are a lot of home batteries that you can pick. Since there are so many options, determining what you need at a particular time can be problematic. For example, a reputed company like Sonnen too manufactures several batteries with varying capacities, features, and prices. If you are confused, read our detailed review on Sonnen batteries like SonnenCore and Ecolinx.

Sonnen Battery popularly known as SonnenBatterie is not just a storage unit that stores excess energy. It is a smart and alternative-powered storage backup for any PV system available in the market.
