

Sri lanka off-grid solar

Sri lanka off-grid solar

"EnergyNet" by Hayleys Solar is an off-grid solar PV system with a battery backup which allows solar power generated during the daytime to be stored, making it ideal for usage during power outages, even during nighttime. Our off-grid and hybrid solar systems can seamlessly power critical loads during power outages including lights, fans, refrigerators, televisions and laptops; it can even be customised to support higher loads such as air conditioners and pumps.

Hayleys Solar is one of the most trusted companies for solar power in Sri Lanka, offering renewable energy through solar power systems, off-grid solar solutions and maintenance services.

The unit will provide continuous power for a small home for 24 hours. These systems will need solar panels and other electrical switching at an additional cost of approx. Rs 120,000

We do not use cheap fans use a lot of electricity. Our fans use less than half the electricity for the same air volume displacement. Test reports and measurements for these energy efficient fans show there is no reduction in the air flow generated in comparison to older standard fan.

Sri Lanka's environment is unique and fragile. Ceylon Eco Solar strives to preserve it for future generations. Our ultimate vision is of a country powered entirely by renewable energy. We work and associate with other renewable energy...

Solar4Lanka offers best solution for solar panels in Sri Lanka with more than 10 years of expertise in the industry. Company owned and operated by Australian Clean Energy Council Certified Installer. Employees are trained by CEC Accredited Trainer. Being Sri Lanka's one of the largest service networks, Solar4Lanka provides solutions to both residential and industrial sectors with the ability to tailor according to your requirements.

SOLAR 4 LANKA team will take care of the entire Solar Conversion project starting from system design, approvals, engineering, installation, continuous maintenance and monitoring.
