

Underwater compressed air energy storage

All articles published by MDPI are made immediately available worldwide under an open access license. No special permission is required to reuse all or part of the article published by MDPI, including figures and tables. For articles published under an open access Creative Common CC BY license, any part of the article may be reused without permission provided that the original article is clearly cited. For more information, please refer to <https://>

Feature papers represent the most advanced research with significant potential for high impact in the field. A Feature Paper should be a substantial original Article that involves several techniques or approaches, provides an outlook for future research directions and describes possible research applications.

Editor's Choice articles are based on recommendations by the scientific editors of MDPI journals from around the world. Editors select a small number of articles recently published in the journal that they believe will be particularly interesting to readers, or important in the respective research area. The aim is to provide a snapshot of some of the most exciting work published in the various research areas of the journal.

Ren, X.; Peng, W.; Wang, Z.; Ma, H. Design of Underwater Compressed Air Flexible Airbag Energy Storage Device and Experimental Study of Physical Model in Pool. *Energies* 2024, 17, 3478. <https://doi/10.3390/en17143478>

WANG Zhiwen, XIONG Wei, WANG Haitao, WANG Zuwen. A review on underwater compressed air energy storage[J]. *Energy Storage Science and Technology*, 2015, 4(6): 585-598.

Our interdisciplinary Wind Energy Fellows program originated from a \$3.2 million National Science Foundation IGERT grant in 2011. The IGERT program has evolved into the Wind Energy Fellows program.

Underwater compressed air energy storage

The Wind Energy Fellows are a community of graduate students conducting research in wind energy. Fellows meet regularly to discuss their research and attend seminars from world-renowned speakers. Any active graduate student at UMass Amherst is eligible to join the program.
