

Wind solar hybrid system controller

Wind solar hybrid system controller

Mars Rock Technology was founded in 2006 and is a company specializing in the research and manufacturing of solar grid connected, energy storage systems, and intelligent charging piles

To calculate the overall star rating and percentage breakdown by star, we don't use a simple average. Instead, our system considers things like how recent a review is and if the reviewer bought the item on Amazon. It also analyzed reviews to verify trustworthiness.

".. works great. Very important !!!! If 12 volt battery use 12 volt panels. If 24 volt battery use 24 volt panels. Always connect battery first!!!!" Read more

"So far it's working well. The interpretation of the instructions were a little difficult to figure out, however the illustrations were a great help...." Read more

"So far it does its job, the screen is hard to read. Easy to install and plenty of install instruction on the packaging, in fact read the packaging..." Read more

"Do not buy this it is a piece of junk I had two in both did not work either does not recognize voltage or does not charge full current from solar we..." Read more

"Do not buy this product...mine would never stop charging the batteries even when it showed not charging....they were....very dangerous and destroyed..." Read more
