

Wirecutter best ev charger

Wirecutter best ev charger

I'm looking at Lowe's online because I have some gift cards to use up I've narrowed it down to a couple. Any feedback on these is appreciated and tell me straight up if I should be buying something else completely different.

We are thrilled to announce that Emporia Energy's Level 2 EV charger has been named the best home electric vehicle charger by New York Times Wirecutter. The recognition is a testament to our commitment to providing reliable, affordable, and smart EV charging solutions for our customers.

Wirecutter's expert team spent hours testing and reviewing the top home EV chargers available, and the Emporia charger stood out for its fast rate of charge, reliability, and exceptional value. In addition, Wirecutter noted several more important features that set the Emporia EV Charger apart:

Want to have your own award-winning EV charger? The standard Emporia Level 2 EV Charger is available in black and white, NEMA 240V plug-in or hardwired, and with your choice of connectors: NACS for Tesla-style vehicles and J1772/CCS for all other electric cars. Both models topped Wirecutter's ratings, so no matter what EV you have, you're in good hands with Emporia.

Emporia is a leading energy management technology company revolutionizing home energy by empowering homeowners to take charge of energy efficiency. Its ecosystem of energy management products, including best-in-class smart EV chargers, home energy monitors, smart plugs and home battery systems, are all managed through an intuitive app with real-time data and automated scheduling features. By reducing customers' energy use and saving them money, Emporia is helping people create a healthier planet and build a brighter future for us all. For more information, visit
